**Bus. Phone** (404) 308-5069 **E-mail** kwshaw@dhr.ga.gov

**Representing (bus., org.,etc.)** STATE OF GEORGIA

**Issue** WAIVED TESTING

## PUBLIC COMMENT FORM

IF BY CLIA defination a test MUST "Pose no reasonable risk of harm to the patient if the test is performed incorrectly" then how can the FDA waive tests like INR's and Lead testing.??? —

People bleed a lot from a cumodin overdose and lead levels on our children speak for themselves Before the lead instrument was WAIVED they had difficulties passing PT. Now they don't have to!
