About the Data

Data Included

- The grants and cooperative agreements data in this report include actions awarded (i.e., obligated funds) domestically in fiscal year 2014 (FY14; 10/1/13 to 9/30/14) from CDC's annual appropriation, which now integrates appropriations through the Affordable Care Act and Prevention and Public Health Fund (PPHF).
- Because the data includes funds obligated in FY14, it may include funding authorized through legislation passed in previous years, but only the amount actually obligated in FY14.
- The funding data is categorized by CDC budget line (i.e., by which CDC appropriation account was used to make the investment).
- This year the categories and subcategories are based fully and solely on budget lines shown in the FY14 CDC Operating Plan at http://www.cdc.gov/fmo/topic/Budget%20Information/appropriations_budget_form_pdf/FY2014_CDC_Operating_Plan.pdf.

Data Excluded

- This data does not include any CDC expenditures, such as contracts, personnel, direct assistance, or other CDC operational and administrative costs.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Public Health Social Services Emergency Fund (PHSSEF), Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (fund

transfers to CDC from DHHS), President's Emergency Plan for AIDS Relief (PEPFAR), Gifts and Donations, Global Health funds, Business Services Support funds and Buildings and Facilities funds. For the first time, excluded were amounts from the Public Health Social Services Emergency Fund, and the value of vaccines purchased and provided to states, cities, and territories by CDC through the Vaccines for Children Program.

The support CDC provided in terms of VFC vaccine purchases for FY14 is available in the document "[Vaccines for Children Program: Value of CDC Vaccine Purchase by Recipient Jurisdiction](#)."

Therefore, this data does not reflect CDC's total appropriations in any given area.
