

Centers for Disease Control and Prevention Fiscal Year 2011 Grants Summary Profile Report for

Oklahoma

This profile includes selected CDC grants and cooperative agreements provided to health departments, universities, and other public and private agencies in Oklahoma. Refer to the "About the Data" section below for important qualifying statements about the data.

2010 Population: 3,751,351
Timeframe: 10/1/10 – 9/30/11

CATEGORY	OBLIGATED AMOUNT	PERCENTAGE
Birth Defects and Developmental Disabilities	\$327,750	0.4%
Chronic Disease Prevention and Health Promotion	\$7,735,826	8.6%
Environmental Health	\$838,050	0.9%
Infectious Diseases	\$8,329,322	9.3%
Injury Prevention and Control	\$943,683	1.1%
Occupational Safety and Health	\$74,999	0.1%
Prevention and Public Health Fund/Other ACA Funds	\$6,050,780	6.8%
Preventive Health and Health Services Block Grant	\$731,559	0.8%
Public Health Preparedness and Emergency Response	\$7,509,542	8.4%
Public Health Scientific Services	\$85,177	0.1%
Vaccines For Children	\$56,917,111	63.6%
Grand Total	\$89,543,799	100.0%

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Birth Defects and Developmental Disabilities	\$327,750
Birth Defects and Developmental Disabilities	\$10,000
Human Development and Disability	\$152,750
All Other	\$165,000
Chronic Disease Prevention and Health Promotion	\$7,735,826
Cancer Prevention and Control	\$3,861,611
Diabetes	\$920,403
Healthy Communities	\$440,000
Heart Disease and Stroke	\$241,741
Safe Motherhood/Infant Health	\$162,496
School Health	\$302,975
Tobacco	\$1,806,600
Environmental Health	\$838,050
Asthma	\$363,909

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Childhood Lead Poisoning	\$474,141
Infectious Diseases	\$8,329,322
HIV/AIDS, Research and Domestic	\$3,521,493
Immunization Programs	\$2,726,703
Sexually Transmitted Diseases	\$908,239
Tuberculosis	\$742,304
Vector-borne Disease	\$180,000
Viral Hepatitis	\$91,469
All Other	\$159,114
Injury Prevention and Control	\$943,683
Intentional Injury	\$464,195
National Violent Death Reporting System	\$201,488
Unintentional Injury	\$278,000
Occupational Safety and Health	\$74,999
Occupational Safety and Health	\$74,999
Prevention and Public Health Fund/Other ACA Funds	\$6,050,780
Community Transformation Grants	\$716,704

88	Vaccines For Children	Vaccines For Children	Oklahoma Vaccines for Children	Oklahoma State Department of Health	Oklahoma City	Oklahoma	OK-005	\$56,917,111

About The Data

Data Included

- The grants and cooperative agreements data in this report include actions awarded (i.e., obligated funds) domestically in fiscal year 2011 (10/1/10 to 9/30/11) from CDC’s annual appropriation and Prevention and Public Health Fund (PPHF)/Other ACA Funds. However, adjustments have been included through 11/7/11, when source data were finalized for use in FY2011 Grants Funding Profiles.
- The total funding in each category or subcategory is the total amount of funding provided by any CDC program investing in that area. For example, the total funding in the “Injury Prevention and Control” category includes funding provided not only by CDC’s National Center for Injury Prevention and Control but by other CDC programs as well.

- Because the data includes funds obligated in 2011, it includes funding authorized through legislation passed in previous years, but only the amount actually obligated in FY2011.
- The primary purpose of the Vaccines for Children (VFC) program is to provide vaccines to eligible children. Thus, the VFC totals for each state and territory funded include the value of the federally-purchased vaccines distributed to each grantee's VFC-participating healthcare providers.
- The Section 317 program provides immunization infrastructure/operations grants and federally-purchased vaccines to 64 grantees, including all 50 states and territories. The Section 317 totals for each state and territory include the immunization infrastructure/operations grants, but not the value of the federally-purchased vaccines distributed to each grantee's VFC-participating healthcare providers.
- The PPHF/Other ACA category includes all grants and cooperative agreements from any CDC source, even if they fall into the data exclusions below.

Data Excluded

- This data does not include any CDC expenditures, above such as contracts, personnel, direct assistance, or other CDC operational and administrative costs, other than those noted above.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (fund transfers to CDC from DHHS), PEPFAR (President's Emergency Plan for AIDS Relief), Gifts and Donations, American Reinvestment and Recovery Act (ARRA) funds, Public Health Scientific Services (except Behavioral Risk Factor Surveillance System) funds, Global Health funds, Business Services Support funds, Buildings and Facilities funds, Public Health Improvement and Leadership funds, Public Health Workforce/Workforce Development funds (except for ACA), World Trade Center funds, Public Health Preparedness SBIR and PHS Evaluation Set-Aside funds and Public Health Service funds.
- *Therefore, this data does not reflect CDC's total appropriations in any given area.*

Data Sources

- Funding Data - CDC Procurement and Grants Office (for grants and cooperative agreement data) and the CDC National Center for Immunization and Respiratory Diseases (for Vaccines For Children data)
- United States, the District of Columbia and Puerto Rico - the 2010 U.S. Census
<http://2010.census.gov/2010census/data/index.php>
- For all other geographies - 2008-2009 data from the United Nations
<http://unstats.un.org/unsd/demographic/products/vitstats/serATab2.pdf>

Data Interpretation and Use

- These data are useful as a snapshot of CDC grant and cooperative agreement funding provided to states and territories under specific categories. However, caution should be used in interpreting these variations. Several of the reasons for variations are (1) not all eligible states or territories apply for every program opportunity, (2) most federal funding is awarded via a competitive or merit-based process and not all states or territories that apply are funded for every program, and (3) some funding is allocated according to a pre-set formula (such as per capita allocation or a need-based funding allocation), which is sometimes specified in law.
- Users of this site and data should be aware of various factors that make comparisons of data between jurisdictions and by per capita difficult to interpret and may lead to inaccurate conclusions in the absence of more in-depth study. Some of those factors include the following:

- CDC has many different grant types with differing application eligibility and award criteria such as population disease burden, per capita formula-based, competitive based on proposal merit, non-competitive, etc.
- Awards made to an entity will typically reflect the geographic location of the entity's official business or billing address such as a State capitol for a State government award. The awards therefore will not reflect the actual geographic application of the funds by the grantee in carrying out the purpose of the grant.
- CDC makes awards to various national associations that carry out national public health programs that have nationwide impact; however, the awards will be reflected in the geographic jurisdiction of the association's main office.
- In addition, there may be variation across years for where a program/activity resides in CDC's organizational and budget structure. Funding sources linked to a particular program/activity may also vary year-to-year. Therefore, it is possible for a multi-year project to fall into one category or sub-category one year and into another the next. This makes 1:1 comparisons of one year's set of projects to another year's set of projects under each category or sub-category a challenge.
- The variation in funding for the categories from 2010 to 2011 illustrate the trend of increased Prevention and Public Health Fund/Other ACA funding and implementation, and the fact that CDC's fiscal year (FY) 2011 base budget was cut \$740M--more than 11%--from the FY 2010 level.
