a. Interview mode: In-person household interview

b. Target age: 1+ years (proxy interview for 1-15 years old)

c. FCBS core module includes two parts:
   
   1. Family level questions
      – 22 questions administered as part of the NHANES household family questionnaire
      – Includes 7 questions in the Consumer Behavior Section (CBQ), 6 questions in the Income Section (INQ), and 9 questions in the Food Security Section (FSQ)

   2. Sample person questions
      – 24 questions included as part of the Dietary Behavior Section (DBQ) in the NHANES household SP questionnaire

d. New in 2015-2016 FCBS core module

   1. Enhancements to the food expenditure questions:
      – Added a probe to the introduction to ask the respondent excluding money spent on alcoholic beverages when answering this series of food expenditure questions.
      – Minor modifications to the wording of questions CBQ101 and CBQ111 (originally CBQ100 and CBQ110) to help respondents focusing on money spent in these stores.

   2. A question (INQ320) was added to assess whether a household has access to a vehicle for food shopping.

   3. Changed the target group for the asset questions (i.e., INQ300 and INQ310) from low-income families only to all participants.
      – The dollar amount in question INQ300 and response categories in its follow-up question INQ310 were modified to accommodate the inclusion of higher income families.
      – The hand cards used with these two questions were also modified to better probing for inclusion of assets from all types of accounts.

   4. Updated the prefills for the monthly income questions INQ238 and INQ241 with the HHS 2014 poverty guidelines.
5. For 2015-2016 cycle, the NHANES Supplemental Nutrition Assistance Program (SNAP) participation questions underwent major revision. Modifications related to FCBS module include:
   – Changed the order of the SNAP/Food stamps participation questions to obtain information on “current” participation first following by recent, then past participation
   – Changed the target for asking “last benefit received date” from household to each individual EBT card in the household.
   – Added “anticipated benefit receiving date” questions to household members who received confirmation of getting SNAP/Food stamps in the next 2 months

6. Changes to the WIC participation questions for children
   – Discontinued data collection on past WIC participations for children 6-11 years.
   – Changed the time reference from “in the past 12 month” to “ever” for the first WIC question (FSQ653).
   – Modified wording for FSQ695 to make the question easier to be understood by the respondent.

   FCBS follow-up module has been discontinued since 2011-2012. There is no follow-up module fielded in the NHANES 2015-2016 cycle.
Section I. Food Expenditure

CBQ.071 Q/U The next questions are about how much money (your family spends/you spend) on food. First I’ll ask you about money spent at supermarkets or grocery stores. Then we will talk about money spent at other types of stores. When you answer these questions, please do not include money spent on alcoholic beverages.

During the past 30 days, how much money (did your family/did you) spend at supermarkets or grocery stores? Please include purchases made with food stamps. (You can tell me per week or per month.)
