## Current Population Survey (CPS) - 2010

CPS
These summary data from the 2010 CPS online microdata files are inclusive of civilian workers, 15 years of age or older, who are identified as being "Employed-At work" or "Employed-Absent". The tables provide national estimates for counts and full-time equivalent (FTE) workers. ${ }^{1,2,3}$ Also provided is the percent change from the year 2009. Refer to http://www.census.gov/cps/ for CPS background and methodology information. These final weight-based results do not match BLS Employment \& Earnings.
